(d) **STANDARD INDUSTRIAL CLASSIFICATION (SIC) CODE AND SMALL BUSINESS SIZE STANDARD.**

The SIC code and small business size standard for this acquisition appear in Block 10 of the solicitation cover sheet (SF 1449). However, the small business size standard for a concern that submits an offer in its own name, but which proposes to furnish an item that it did not itself manufacture, is 500 employees.

(e) **PERIOD FOR ACCEPTANCE OF OFFERS.** The offeror agrees to hold the prices in its offer firm for **120 calendar days** from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

(f) **PRODUCT SAMPLES.** When required by the solicitation, product samples shall be submitted at or prior to the time specified for receipt of offers. Unless otherwise specified in this solicitation, these samples shall be submitted at no expense to the Government, and returned at the sender's request and expense, unless they are destroyed during preaward testing.

(g) **MULTIPLE OFFERS.** Offerors are encouraged to submit multiple offers presenting alternative terms and conditions or commercial items for satisfying the requirements of this solicitation. Each offer submitted will be evaluated separately.

(h) **LATE SUBMISSIONS, MODIFICATIONS, REVISIONS, AND WITHDRAWALS OF OFFERS.**

(1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.

(2) (i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is "**late**" and will not be considered unless it is

received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and--

(A) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of offers; or

(B) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers; or

(C) If this solicitation is a request for proposals, it was the only proposal received.

(ii) Any modification or revision of a proposal or response to request for information, including any final proposal revision, is subject to the same conditions as in subparagraphs (c)(3)(i)(A) through (c)(3)(i)(E) of this provision.

(3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.

(i) Unless otherwise specified in the solicitation, the offeror may propose to provide any item or combination of items.

(j) Proposals submitted in response to this solicitation shall be in English and in U.S. dollars unless otherwise permitted by the solicitation.

(k) Offerors may submit revised proposals only if requested or allowed by the Contracting Officer.

(l) Proposals may be withdrawn at any time before award. Withdrawals are effective upon receipt of notice by the Contracting Officer.

(m) **CONTRACT AWARD.**

(1) **RFPs ONLY (not applicable to IFBs).**

(i) While the Government intends to evaluate offers and award a contract without discussions, it reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary.

(ii) The Government intends to evaluate proposals and award a contract after conducting discussions with offerors whose proposals have been determined to be within the competitive range. If the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals. Therefore, the offeror's initial proposal should contain the offeror's best terms from a price and technical standpoint.

(iii) Exchanges with offerors after receipt of a proposal do not constitute a rejection or counteroffer by the Government.

(2) The Government intends to award a contract or contracts resulting from this solicitation to the responsible offeror(s) whose offer(s) conforming to the solicitation will be most advantageous to the Government, cost or price and other factors (including subfactors) specified elsewhere in this solicitation, considered.

(3) The Government may reject any or all offers if such action is in the Government's interest.

(4) The Government may waive informalities and minor irregularities in offers received.

(5) The Government may accept any item or group of items of a proposal, unless the offeror qualifies the proposal by specific limitations. Unless otherwise provided in the Schedule, proposals may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.

(6) A written award or acceptance of offer mailed or otherwise furnished to the successful offeror within the time specified in the offer shall result in a binding contract without further action by either party.

(7) The Government may disclose the following information in postaward debriefings to other offerors:

(i) The overall evaluated cost or price and technical rating of the successful offeror;

(ii) The overall ranking of all offerors, when any ranking was developed by the agency during source selection;

(iii) A summary of the rationale for award; and

(iv) For acquisitions of commercial items, the make and model of the item to be delivered by the successful offeror.

EVALUATION FACTORS FOR AWARD

M3.01 EVALUATION OF OFFERS WHERE UNCOMMON ESCALATORS ARE USED (DESC JAN 1998)

(a) **FOR EVALUATION PURPOSES ONLY**, an evaluation factor will be applied to the Final Proposal Revision (FPR) prices of those items in which uncommon escalators are proposed as a basis for economic price adjustments. (b) The offeror's margin (plus or minus) will be established as the difference between the FPR price and the Final Revised reference price. The margin will then be added to the 12-month average of the posting or publication being proposed to determine the evaluated price. The 12-month average will be calculated over the most recent complete 12-month period prior to the established reference date (i.e., if reference date is August 22, 1994, then the 12-month period would be August 1993 - July 1994).

M72 EVALUATION OF OFFERS (EXCEPTIONS/DEVIATIONS) (DESC APR 1997)

- (a) Offerors are expected to submit offers in full compliance with all terms and conditions of this solicitation.
- (b) Any exceptions/deviations to the terms and conditions of this solicitation will result in the Government's determination that either--
 - (1) The exception/deviation is material enough to warrant rejection of the offer in part or in full; or
 - (2) The exception/deviation is acceptable.
- (c) If the exception/deviation is in reference to a specification contained in this solicitation and the offeror cannot supply product fully meeting the required specification(s), the product can be offered for consideration provided the offeror clearly indicates, by attachment to the offer, the extent to which any product offered differs from the required specification(s).
- (d) If the exception/deviation is in reference to a particular test, inspection, or testing method contained in this solicitation, the offer can be considered provided the offeror clearly indicates, by attachment to the offer, the extent to which its offer differs from those requirements.
- (e) If the exception/deviation is determined acceptable, offered prices may be adjusted, for evaluation purposes only, by the Government's best estimate of the quantitative impact of the advantage or disadvantage to the Government that might result from making an award under those circumstances.

(DESC 52.209-9F45)

- (a) APPLICATION. This provision applies only after all price evaluation factors have been considered.
- (b) BASIS OF AWARD.

(1) The Government will award contracts to the responsible offeror(s) whose offer conforms to the solicitation and that represents the best overall value. The Government will determine best overall value on the basis of an integrated assessment of the following evaluation factors, which are in descending order of importance:

- (i) Price;
- (ii) Past Performance; and
- (iii) Socioeconomic Commitment.

The relative influence of price, past performance, and socioeconomic commitment will depend on the differences among the competing offerors, and not on any predetermined, fixed, weighted arrangements or trade-off formula. Price is more important than past performance, and price combined with past performance is significantly more important than socioeconomic commitment. All evaluation factors other than price (past performance and socioeconomic commitment), when combined, are approximately equal to price in importance.

(2) In determining best overall value, the Government will evaluate and rate each offeror's past performance based on preestablished standards. The offer(s) selected as best value will represent the best tradeoff to the Government among price, past performance, and socioeconomic commitment. The Government may make award to other than the lowest priced offeror; however, the Government will not pay a premium that it considers disproportionate to the benefits associated with the offeror's record of past performance and socioeconomic commitment.

(c) ACCEPTABILITY OF OFFERS. An offer will be considered acceptable if, and only if, an offeror agrees to the terms and conditions in the solicitation, or if the Government has accepted any exceptions submitted with the offer.

- (d) EVALUATION OF PAST PERFORMANCE.

(1) The Government will evaluate, based on preestablished standards, the quality of the offeror's past performance. This may include any aspect of past performance related to this solicitation. The assessment of the offeror's past performance will be used as a means of evaluating the offeror's ability to meet the solicitation requirements. A record of poor past performance may be considered an indication that the offeror has failed to conform to contract requirements and/or to standards of good workmanship; to adhere to contract schedules, including the administrative aspects of performance; to provide reasonable and cooperative behavior and commitment to customer satisfaction; and/or to display a business-like concern for the interests of the customer. Offerors shall be afforded an opportunity to address unfavorable reports of past performance, and the offeror's response, or lack thereof, will be taken into consideration. Recent contracts may be examined to ensure that corrective action measures have been put in place to prevent the recurrence of past performance problems. Prompt actions taken to correct performance problems may be considered a reflection of management concern for customer satisfaction; however, such action may not mitigate all negative performance trends. Additionally, a record of satisfactory or exceptional past performance will not result in a favorable assessment of an otherwise unacceptable proposal. Offerors lacking relevant past performance history or for which past performance information is not available will not be evaluated favorably or unfavorably on past performance.

(2) The Government reserves the right to consider any information available to it in evaluating an offeror's past performance. This includes information obtained from the offeror's references, past and present customers, subcontractors, and any other sources that may have useful information. However, the Government reserves the right not to contact all of the references listed by the offeror. The Government also reserves the right to assess the offeror's past performance based solely on the offeror's performance under an existing DESC contract or a previous DESC contract for work similar to that required by the solicitation.

(3) The subfactors listed below are equal to one another in importance and will be used to evaluate past performance:

- (i) Quality of Product and Service. Assessment of the offeror's ability to conform to contract requirements, specifications, and standards of good workmanship.
- (ii) Schedule. Assessment of the offeror's ability to meet delivery schedules, to respond to administrative issues in a timely manner, and to complete a contract.
- (iii) Business Relations. Assessment of the offeror's commitment to maintaining an acceptable level of performance, customer satisfaction, and meeting small business, HUBZone small business, small disadvantaged business, and women-owned small business participation goals, as applicable. This includes the offeror's history of reasonable and cooperative behavior, participation in problem identification, and corrective action measures.

- (e) EVALUATION OF SOCIOECONOMIC COMMITMENT.

(1) The socioeconomic proposal provided by the offeror will be evaluated as follows:

- (i) As a separate factor, for the offeror's proposal under this solicitation; and
- (ii) As an element of the Business Relations subfactor of the Past Performance Factor.

(2) The Government will evaluate, based on preestablished standards, the extent to which an offeror proposes to use small businesses,

HUBZone small businesses, small disadvantaged businesses, and women-owned small businesses. An offeror that demonstrates greater commitment to partnering and subcontracting with small businesses, HUBZone small businesses, small disadvantaged businesses, and women-owned small businesses will receive more favorable ratings. An offeror with higher percentage, complexity level, and variety of participation by small businesses, HUBZone small businesses, small disadvantaged businesses, and women-owned small businesses generally will receive more favorable ratings. An offeror's current efforts to develop additional opportunities for small businesses, HUBZone small businesses, small disadvantaged businesses, and women-owned small businesses will also be considered.

(3) The offeror's proposal for socioeconomic support will be made a part of any resultant contract for use in determining how well the Contractor adheres to its socioeconomic plan. This plan will be monitored by the cognizant Defense Contract Management Command's small business office as a means of assisting the Contracting Officer in determining how well the Contractor performs. This determination may be used in future best value decisions.

(f) **BEST VALUE DETERMINATION.** After the past performance ratings are determined, a series of paired comparisons will be made between competing offerors for each line item. In making these paired comparisons, the Government will determine the difference in price, past performance, and socioeconomic commitment. If, in any paired comparison, one offeror is superior in past performance and offers the lowest price, then the Government will consider that offeror to represent the better value. But, if the offeror with the superior past performance offers a higher price than the competing offeror, the Government will decide whether the superior performance merits the higher price. If so, then the Government will consider the offeror with superior past performance at a higher price to represent the best value. Otherwise, the Government will consider the competing offeror with the lower price and lower past performance rating to represent a better value. If, in any paired comparison, the offerors are equal in the elements of price and past performance, then the offeror with the superior socioeconomic evaluation will represent the better value. The Government will continue to make paired comparisons in this manner until it has identified the offeror that represents the best value based on price, past performance, and socioeconomic commitment. In the event of a tie among all factors and subfactors between two or more offerors considered to represent the best value, the final award decision shall be made by a drawing by lot limited to those offerors. The drawing shall be witnessed by at least three persons, with the names and addresses of the witnesses and supervising official documented in the contract file.

 - (1) **Award price** means the unit price set forth opposite the item in the Schedule.
 - (2) **Reference price** means the independent index or established price set forth in this clause with which the award price is to fluctuate. The reference price should be a price for the same or similar product(s) as the item being purchased.

(3) **Independent index** means an index measuring the general rate and direction of price movements for a commodity within a market which is beyond the control of the Contractor. Examples of such indices would include a wholesale price index such as that published by the Bureau of Labor Statistics.

(4) **Established price** means one that is an established catalog or market price for a commercial item as defined in FAR 2.101, Definitions.

(5) **Date of delivery** means--

(i) **FOR TANKER OR BARGE DELIVERIES.**

(A) **F.O.B. ORIGIN.** The date and time vessel commences loading;

(B) **F.O.B. DESTINATION.** The date and time vessel commences discharging;

f.o.b. point; and

(iii) **FOR ALL OTHER TYPES OF DELIVERIES.** The date product is received.

(c) **ADJUSTMENTS.** The prices payable under this contract shall be the award price increased or decreased by the amount, determined according to the following formula, that the reference price shall have increased or decreased, to and including the date of delivery.

(1) The amount of increase or decrease in the award price shall be--

(Buyer - Check appropriate box and complete applicable blanks.)

The same number of cents, or fraction thereof, that the reference price increases or decreases per like unit of measure.

The number of cents, or fraction thereof, determined by the ratio of \$_____ per gallon for each \$_____ per barrel that the reference price increases or decreases.

The number of cents, or fraction thereof, at the rate of \$_____ per gallon for each \$_____ per barrel that the reference price increases or decreases.

(2) The reference price with which the award price for the listed item is to fluctuate (and which is more fully defined in the Table below) is--

(i) The low price published in _____
(name of publication)

(ii) The average of the prices published in: **Caribbean Product Posting.**
(name of publication)

(iii) The established price posted by : _____
(name of company)

and published in _____
(name of publication)

(3) **COMMERCIAL.** For price adjustments utilizing **commercial** publications such as Platt's Oilgram, etc., the reference price in effect on the date of delivery shall be that item's preselected reference price that is published as dated in the Table below. An increase or decrease in any reference price published in a trade price service or in a commercial journal shall apply only to deliveries made on or after the effective date of such trade price service or commercial journal.

(4) **NONCOMMERCIAL (NOTIFICATION).** For price adjustments utilizing a reference price indicator **other than commercial** publications such as Platt's Oilgram, the Contractor shall notify the _____ of any changes in the reference price in writing within 15 calendar days from the date thereof.

(i) **INCREASES.** Any increase in unit price as a result of an increase in reference price shall apply only to deliveries made on or after the date of receipt by the Contracting Officer of a written notification from the Contractor of such increase. However, the prices payable under this contract shall in no event exceed the Contractor's posted or established selling price in effect on the date of delivery for the product supplied in the form of delivery made at the point of delivery. Also, no notification incorporating an increase in a contract unit price shall be executed pursuant to this clause until the increase has been verified by the Contracting Officer.

(ii) **DECREASES.** If the Contractor fails to notify the Contracting Officer of any decrease in the reference price, within the allotted 15 day period, such decrease shall apply to all deliveries made on or after the effective date of such decrease. However, if any overpayment is made to the Contractor as a result of the Contractor's failure to give timely notice to the Contracting Officer of any decrease in the established price, the Contractor shall be charged interest on such overpayment

from the date of the overpayment to the date of reimbursement by the Contractor for the overpayment in accordance with the Disputes paragraph of the CONTRACT TERMS AND CONDITIONS – COMMERCIAL ITEMS clause of this contract.

(5) Where the reference price is an established price (see (c)(2)(iii) above), the Contractor warrants that the product selected is one for which, except for modification required by the specifications of this contract, the Contractor has an established price. Such price is the net price after applying any applicable standard trade discounts offered by the Contractor for his catalog, list, or schedule price. The Contractor further warrants that, as of the current date, any differences between the unit prices of the line items identified in the Schedule and the Contractor's established price for like quantities of the nearest commercial equivalents of such contract items are due to compliance with contract specifications and to compliance with any requirements that this contract may contain for preservation, packaging, and packing beyond standard commercial practice.

(d) **MODIFICATIONS.** Any resultant price changes shall be provided via notification through contract modifications and/or postings to the DESC web page under the heading **Doing Business with DESC**.

(e) **FAILURE TO DELIVER.** Notwithstanding any other provisions of this clause, no upward adjustment shall apply to product scheduled under the contract to be delivered before the effective date of the adjustment, unless the Contractor's failure to deliver according to the delivery schedule results from causes beyond the Contractor's control and without its fault or negligence, within the meaning of the Excusable Delays and Termination for Cause paragraphs of the CONTRACT TERMS AND CONDITIONS – COMMERCIAL ITEMS clause of the this contract, or is the result of an allocation made in accordance with the terms of the ALLOCATION clause of this contract, in which case the contract shall be amended to make an equitable extension of the delivery schedule.

(f) **UPWARD CEILING ON ECONOMIC PRICE ADJUSTMENT.** The Contractor agrees that the total increase in any contract unit price pursuant to these economic price adjustment provisions shall not exceed _____ percent of the award price during the first program year or of the unit price in effect as of the start of any subsequent program year (if this is a long-term or multiyear program), except as provided hereafter:

(1) If at any time the Contractor has reason to believe that within the near future a price adjustment under the provisions of this clause will be required that will exceed the current contract ceiling price for any item, the Contractor shall promptly notify the Contracting Officer in writing of the expected increase. The notification shall include a revised ceiling the Contractor believes is sufficient to permit completion of remaining contract performance, along with appropriate explanation and documentation as required by the Contracting Officer.

(2) If an actual increase in the reference price would raise a contract unit price for an item above the current ceiling, the Contractor shall have no obligation under this contract to fill pending or future orders for such item, as of the effective date of the increase, unless the Contracting Officer issues a contract modification to raise the ceiling. If the contract ceiling will not be raised, the Contracting Officer shall so promptly notify the Contractor in writing.

(g) **REVISION OF REFERENCE PRICE INDICATOR.** In the event—

(1) Any applicable reference price is discontinued or its method of derivation is altered substantially;

(2) The reference price is an average of published or posted prices, and any one price ceases to be published or posted;

(3) The reference price is published in a trade price service or commercial journal and such publication ceases to publish said reference price or changes its method of quoting prices; **or**

(4) The Contracting Officer determines that the reference price consistently and substantially failed to reflect market conditions—

the parties shall mutually agree upon an appropriate and comparable substitute for determining the price adjustment described hereunder. The contract shall be modified to reflect such substitute effective on the date the indicator was discontinued, altered, or began to consistently and substantially fail to reflect market conditions. If the parties fail to agree on an appropriate substitute, the matter shall be resolved in accordance with the Disputes paragraph of the CONTRACT TERMS AND CONDITIONS – COMMERCIAL ITEMS clause of this contract.

(h) **CONVERSION FACTORS.** If this clause requires quantity conversion for economic price adjustment purposes, the conversion factors for applicable products, as specified in the CONVERSION FACTORS clause, apply unless otherwise specified in the Schedule.

(i) **EXAMINATION OF RECORDS.** The Contractor agrees that the Contracting Officer or designated representatives shall have the right to examine the Contractor's books, records, documents, or other data the Contracting Officer deems necessary to verify Contractor adherence to the provisions of this clause.

(j) **FINAL INVOICE.** The Contractor shall include a statement on the final invoice that the amounts invoiced hereunder have applied all decreases required by this clause.

The Contractor must sign and date each revision to the QCP and require subcontractors to sign and date each revision to the subcontractor's QCP.

(2) The Contractor shall require subcontractors (unless otherwise instructed by the Government) to provide and maintain inspection systems and QCPs that are acceptable to the Government.

(3) The QCP shall include an identification of key operational positions, a schematic diagram of plant facilities pertinent to the inspection system indicating all inspection points, and a description covering the following operations relating to the supplies to be furnished under the contract:

E21.01 SUPPLEMENTAL INSPECTION (OVERSEAS) (DESC JUL 1999)

(a) Inspection responsibility is assigned to the cognizant office specified in the LIST OF INSPECTION OFFICES FOR OVERSEAS PETROLEUM PRODUCT CONTRACTS or the QUALITY REPRESENTATIVE clause of this contract, whichever is applicable.

(b) On items calling for f.o.b. origin delivery, inspection and acceptance will be performed at the point of delivery.

(c) On items calling for f.o.b. destination delivery, preliminary inspection for quality will be performed at the product source, with final inspection and acceptance at destination except that--

(1) On all bulk fuels, other than aviation, that are delivered via TT/TW to U.S. Government installations for their use and consumption, Government inspection for identity and quantity will be performed by the receiving activity at point of acceptance.

(2) If there is evidence that product deliveries are not in conformance with the contract, assistance, if required, should be solicited from the cognizant inspection office.

(3) The Government reserves the right to perform quality inspection at all times and places if warranted.

(d) On items calling for delivery of drummed or packaged products, either f.o.b. origin or f.o.b. destination, inspection for product quality will be performed at the point of manufacture or blending. If the point of blending is different from the point of manufacture of component stocks, preliminary inspection of component stocks may be performed at their point of manufacture. Quality verification and inspection for proper filling and packaging will be performed at the point of filling. Final inspection and acceptance will be at the point of delivery.

(e) Whenever the item calls for delivery into or by tanker, either f.o.b. origin or f.o.b. destination, the Contractor shall keep the Inspector informed of the loading date and source of supply and any changes thereto as far in advance of the loading date as is possible to permit necessary inspection by the Government.

(f) When the item calls for delivery f.o.b. origin into Government-furnished tanker and the Contractor has the option to designate the loading point(s), the Contractor shall notify the Inspector and the Ordering Officer of the designated loading point(s) at least 14 days in advance of the scheduled delivery date. When the item calls for f.o.b. destination delivery and the Contractor has the option to designate the loading point(s), the Contractor shall notify the Inspector and the Ordering Officer of the designated loading point(s) as far in advance of the loading date as is possible.

E35.02	REQUESTS FOR WAIVERS AND DEVIATIONS (DESC JUL 2000)
---------------	--

(a) The following procedures apply to requests for specification waivers.

(1) Requests for waivers and deviations shall be submitted by the Contractor to the Contracting Officer with a copy to the Quality Representative (QR). Each request shall provide the following information: Contractor name; contract number; contract line item and product, if applicable; clause number, paragraph and subparagraph, as appropriate; the nature of the request; the reason for the request; the corrective action being taken by the Contractor to correct and prevent recurrence of the condition(s) causing the nonconformance; and equitable price adjustment offered over the administrative fee. In extraordinary situations, the Contractor may initially submit the request for a deviation or waiver through the cognizant QR to the Contracting Officer or the Contracting Officer's Representative (COR) in the Bulk Fuels Business Unit, Product Technical and Standardization Division, Defense Energy Support Center (DESC). Extraordinary situation requests shall be submitted formally to the Contracting Officer prior to close of business of the next DESC normal workday. As used in this clause, the term "extraordinary situation" means the matter cannot await resolution until the DESC normal workday (0800 to 1630 hours), Monday through Friday - Federal holidays excluded. In addition, if either the Contracting Officer or the COR cannot be reached, the Duty Officer shall be contacted and provided the necessary information to forward to the proper individuals as soon as possible. The Duty Officer's telephone number is (800) 286-7633, (703) 767-8420, or DSN 427-8420.

(2) If the waiver is granted, the contract will be modified to provide an equitable price reduction or other adequate consideration commensurate with the waiver being granted. If the situation dictates, a waiver may be granted without prior agreement on price adjustment or other consideration subject to agreement by the Contractor, or its representative, to subsequent negotiation. Such agreement shall be documented on the receiving document or other appropriate correspondence. After negotiations, failure to agree on adequate consideration shall be a dispute concerning a question of fact within the meaning of paragraph (d), Disputes, of the CONTRACT TERMS AND CONDITIONS -- COMMERCIAL ITEMS clause of this contract.

(3) If the waiver is granted and the nonconforming supplies are accepted, then in no event will consideration be less than \$250 to cover administrative costs, plus any additional cost of Government inspection or tests if reinspection or retest is necessary.

(4) If the waiver is granted modifying this contract but the supplies accepted are nevertheless determined to be in conformity with contract specifications, the Contractor shall still be obligated to pay the consideration originally agreed

upon in support of the waiver. If, however, this consideration exceeds \$500, a second contract modification shall be issued reducing the Contractor's obligation to \$500 (the administrative cost of issuing the two required modifications).

(b) When notification of nonconforming supplies is received after the supplies have been accepted, and the Government determines not to exercise its right to require repairs or replacement of nonconforming supplies or reperformance of nonconforming services at no increase in contract price under the INSPECTION OF SUPPLIES – FIXED-PRICE clause or the CONTRACT TERMS AND CONDITIONS - COMMERCIAL ITEMS clause, then in no event will consideration be less than \$250 to cover administrative costs. This \$250 fee is in addition to--

- (1) Consideration commensurate with the extent of nonconforming supplies; and
- (2) Cost of Government inspection or tests if reinspection or retest is necessary.

The administrative fee will apply to each claim letter issued for off-specification product delivered to an activity.

(A) On items requiring delivery at the Contractor's refinery, terminal, or bulk plant on an f.o.b. origin basis, the quantity shall be determined (at the Contractor's option) on the basis of--

- (a) Certified capacity tables of the conveyance loaded; or
- (b) Calibrated meter; or
- (c) Weight, using calibrated scales.

(B) The Government has the right to have a representative present to witness the measurement of quantity.

(ii) **F.O.B. DESTINATION.**

(A) In any case, at the Government's option, quantity may be determined at the receiving activity on the basis of--

- (a) Weight, using calibrated scales; or
- (b) A calibrated meter on the receiving tank system.

(B) If the Government does not elect to use one of the methods in (A) above, the quantity shall be determined (at the Contractor's option) on the basis of--

- (a) Calibrated meter;
- (b) Certified capacity tables. The tables must be made available at the time of delivery;
- (c) Certified tank calibration markers. Certified tank calibration markers will not be accepted unless the conveyance is full to the marker and the entire quantity is delivered; or
- (d) The net quantity determined at the loading point by a calibrated loading rack meter or calibrated scales. This quantity must be mechanically imprinted on the loading rack meter ticket that is generated by the loading rack meter or calibrated scales.

(iii) **WATER BOTTOMS.**

- (A) Every delivery must be free of all water bottoms prior to discharge; and
- (B) The Contractor is responsible for their removal and disposal.

(b) **VOLUME CORRECTION.** Volume correction to gallons at 60°F (or liters at 15°C) is required for--

- (1) All product volumes measured in storage tanks, tankers, barges, pipeline tenders, and rail tank cars.
- (2) All product volumes of chemicals, residual fuels, and lubricating oils measured in tank trucks, trucks and trailers, and tank wagons. For this purpose, residual fuels are any products with a viscosity equal to or greater than a regular (not light) No. 4 Fuel Oil (ASTM D 396).
- (3) All other volumes of fuels and fuel oils measured in tank trucks, trucks and trailers, and tank wagons which are in excess of 3,500 gallons.

(c) **MEASUREMENT STANDARDS.** All measurements and calibrations made to determine quantity shall be in accordance with the most recent edition of the API Manual of Petroleum Measurement Standards (MPMS) Outside the U.S., other technically equivalent national or international standards may be used. Certified capacity tables shall mean capacity tables prepared by an independent inspector or any independent surveyor. In addition, the following specific standards will be used as applicable:

(1) API MPMS Chapter 11.1, Volume Correction Factors (API 2540/AASTM D 1250/IP 200/ISO 91-1). Either the printed version or the computer subroutine versions of the standard may be used. In case of disputes, the computer subroutine shall be the referee method.

- (i) For crude oils, JP4, and Jet B, use Volume I, Tables 5A and 6A (or Volume VII Tables 53A and 54A).
- (ii) For lubricating oils, use Volume XIII, Tables 5D and 6D (or Volume XIV, Tables 53D and 54D).
- (iii) For all other fuels and fuel oils, use Volume II, Tables 5B and 6B (or Volume VIII, Tables 53B and 54B).
- (iv) For chemicals/additives use Volume III, Table 6C (or Volume IX, Table 54C), or volume correct in accordance with the product specification.

(v) Volume XII, Table 52, shall be used to convert cubic meters at 15°C to barrels of 60°F. Convert liters at 15°C to cubic meters at 15°C by dividing by 1,000. Convert gallons at 60°F to barrels of 60°F by dividing by 42. Should foreign law restrict conversion by this method, the method required by law shall be used.

(vi) If the original measurement is by weight and quantity is required in U.S. gallons, then--

(A) Volume XI, Table 8, shall be used to convert pounds to U.S. gallons at 60°F.

(B) Volume XII, Table 58, shall be used to convert metric tons to U.S. gallons at 60°F.

(2) **API MPMS, Chapter 4, Proving Systems.** All meters used in determining product volume shall be calibrated using this standard with the frequency required by local regulation (foreign or domestic). If no local regulation exists, then the frequency of calibration shall be that recommended by the meter manufacturer or every 6 months, whichever is more frequent.

(3) **API MPMS Chapter 12, Calculation of Petroleum Quantities.** All calculations of net quantities shall be made in accordance with this chapter. Outside the U.S., use of a tank shell correction factor is not required unless its use is a customary practice for custody transfer. (DESC 52.211-9F95)

F1.09-1 ANNOTATION OF SHIPPING DOCUMENTS (DESC AUG 1999)

(a) **Trucks with temperature-compensating meters.** For deliveries when temperature compensating meters are used to determine quantity, the shipping document (truck's metered ticket) shall be annotated with the API gravity (or density), net quantity, and a statement that a temperature compensating meter was used to determine quantity.

(b) **Trucks without temperature-compensating meters.** For deliveries when quantity is determined without volume correction to 60°F (15°C) as permitted in the DETERMINATION OF QUANTITY clause, paragraph (b), the shipping document (truck's metered ticket) shall be annotated with the API gravity (or density), gross quantity, and a statement that volume correction was not required.

(c) **For all other deliveries, including those using a loading rack meter ticket as the shipping document.** The shipping document shall be annotated with the gross and net gallons (or gross and net liters), the observed and corrected API gravity (or density), and the temperature at which the product was measured.

(DESC 52.211-9FB1)

F1.09-2 DETERMINATION OF QUANTITY (PC&S) (DESC MAY 2000)

(a) **QUANTITY.** The quantity of supplies furnished under this contract shall be determined as follows:

(1) **DELIVERIES INTO OR BY TANKER/BARGE.**

(i) **F.O.B. ORIGIN.**

(A) On items requiring delivery at the Contractor's refinery, terminal, or bulk plant on an f.o.b. origin basis, the invoice quantity shall be determined (at the Contractor's option) on the basis of--

- (a) Shore tank measurements; or
- (b) Calibrated meter.

(B) The Government will have the right to have a representative present to witness the measurement of quantity.

(ii) **F.O.B. DESTINATION.**

(A) On items requiring delivery on an f.o.b. destination basis, the invoice quantity shall be determined on the basis of--

- (a) Calibrated meter if the delivery conveyance is so equipped; otherwise--
- (b) Gauging the receiving shore tank; or
- (c) Gauging the tanker/barge before and after delivery.

(B) The Contractor has the right to have a representative present to witness the delivery and measurement of quantity.

(2) **DELIVERIES INTO OR BY TANK TRUCK/TRUCK AND TRAILER/TANK WAGON.**

(i) **F.O.B. ORIGIN.**

(A) On items requiring delivery at the Contractor's refinery, terminal, or bulk plant on an f.o.b. origin basis, the invoice quantity shall be determined (at the Contractor's option) on the basis of--

- (a) Certified capacity tables of the conveyance loaded;
- (b) Calibrated meter; or
- (c) Weight, using calibrated scales.

(B) The Government has the right to have a representative present to witness the measurement of quantity.

(ii) **F.O.B. DESTINATION.** On items requiring delivery on an f.o.b. destination basis, the invoice quantity shall be determined as follows:

(A) If the narrative requires a tank truck with meter, a truck and trailer with meter, or tank wagon (which is always equipped with a meter), that meter shall be used to determine invoice quantity at time of delivery. The quantity shall be read directly from the meter; otherwise--

(B) The Government may elect to determine invoice quantity at the receiving activity at the time of delivery on the basis of--

(a) Weight, using calibrated scales; or

(b) A calibrated meter on the receiving tank system.

(C) If the Government does not require method (a)(2)(ii)(A) above and does not elect to use method (a)(2)(ii)(B) above, the Contractor may then elect to provide equipment that enables the Government and the Contractor to determine invoice quantity at destination at the time of delivery by one of the following methods:

(a) A calibrated meter on the delivery conveyance. The quantity shall be read directly from the meter; or

(b) Gauging the delivery conveyance. The certified capacity tables must be made available at the time of delivery. This method may not be used in areas where environmental restrictions prohibit the opening of dome hatches; or

(c) Certified tank calibration markers. Certified tank calibration markers will not be accepted unless the conveyance is full to the marker and the entire quantity is off-loaded at the receiving activity. This method may not be used for deliveries to Army activities or in areas where environmental restrictions prohibit the opening of dome hatches.

(d) Provide the receiving activity with the net quantity determined at the loading point by a calibrated loading rack meter or calibrated scales. This quantity must be mechanically imprinted on the loading rack meter ticket that is generated by the loading rack meter or scales.

(D) The Contractor has the right to have a representative present to witness the delivery and measurement of quantity.

(iii) **WATER BOTTOMS.**

(A) Every delivery must be free of all water bottoms prior to discharge; and

(B) The Contractor is responsible for their removal and disposal.

(b) **VOLUME CORRECTION TO STANDARD TEMPERATURE.** To convert gross measured quantities to net quantities of gallons at 60°F (or liters at 15°C), use Volume Correction Factors and the API gravity (or density at 15°F) (see (c)(1) below). Volume correction to a standard temperature of 60°F (or liters at 15°C) is required for--

(1) All product volumes measured in storage (receiving) tanks, tankers, and barges;

(2) All product volumes measured by meters on the (receiving) tank system;

(3) All product volumes determined by weight using a calibrated scale;

(4) All product volumes determined by loading rack meter;

(5) All product volumes of residual fuels measured in tank trucks or truck and trailers. For this purpose, residual fuels are any products with a viscosity equal to or greater than a regular (not light) No. 4 Fuel Oil (ASTM D 396); and

(6) All other product volumes measured in tank trucks or truck and trailers that are in excess of 5,000 gallons except for deliveries where the meter on the delivery conveyance is used to determine quantity. If the meter on the delivery conveyance is used to determine invoice quantity, volume correction shall not be performed unless the meter is equipped to volume correct automatically. The invoice quantity shall be determined directly from the meter reading.

(c) **MEASUREMENT STANDARDS.** All measurements and calibrations made to determine quantity shall be in accordance with the most recent edition of the API Manual of Petroleum Measurement Standards (MPMS). Outside the United States, other technically equivalent national or international standards may be used. **Certified capacity tables** shall mean capacity tables prepared by an independent inspector or any independent surveyor. In addition, the following specific standards will be used as applicable:

(1) **API MPMS Chapter 11.1, Volume Correction Factors** (API 2540/ASTM D 1250/IP 200/ISO 91-1).

Either the printed version or the computer subroutine versions of the standard may be used. In case of disputes, the computer subroutine will be the referee method.

(i) For all fuels and fuel oils, Volume II, Tables 5B and 6B (or Volume VIII, Tables 53B and 54B), shall be used to determine the volume correction factor.

(ii) Volume XII, Table 52 shall be used to convert cubic meters at 15°C to barrels at 60°F, except when this method is restricted by foreign law. Convert liters at 15°C to cubic meters at 15°C by dividing by 1,000. Convert gallons at 60°F to barrels at 60°F by dividing by 42. Should foreign law restrict conversion by this method, the method required by law shall be stated in the offer.

(iii) If the original measurement is by weight and quantity is required by U.S. gallons, then--

(A) Volume XII, Table 58, shall be used to convert metric tons to U.S. gallons at 60°F. Convert kilograms to metric tons by dividing by 1,000.

(B) Volume XI, Table 8, shall be used to convert pounds to U.S. gallons at 60°F.

(2) **API MPMS Chapter 4, Proving Systems.** All meters used in determining product volume shall be calibrated using this standard with the frequency required by local regulation (foreign or domestic). If no local regulation exists, then the frequency of calibration shall be that recommended by the meter manufacturer or every 6 months, whichever is more frequent.

(a) The period of this contract during which the Ordering Officer may order and the Contractor shall deliver, if ordered, will be as follows unless the Schedule specifies otherwise:

(1) Ordering period begins: **Date of Award** and ends: **31 MARCH 2003**

(2) Delivery period begins: **Date of Award** and ends: **30 days after end of ordering period.**

(b) Notwithstanding the foregoing, deliveries prior to the delivery period, made at the option of the Contractor and pursuant to an order by the Government, shall be deemed to have been made under this contract at the applicable contract price(s).

(DESC 52.242-9F75)

F16 BARGE UNLOADING CONDITIONS (DESC MAY 1998)

(a) On items calling for delivery f.o.b. destination by means of barge--

(1) The supplies ordered hereunder shall be delivered, all transportation charges paid, to the destination specified in the Schedule. Unless otherwise specified in the Schedule, orders placed under items of the Schedule calling for delivery f.o.b. destination by means of barge will be furnished the Contractor at least 24 hours, plus the normal barge running time from point of loading to the destination, in advance of the date on which delivery is to be made, which date is hereinafter referred to in this clause as the "scheduled delivery date." Each order will specify the quantity to be delivered and the scheduled delivery date. The scheduled delivery date may be changed by the Contractor at any time if the Ordering Officer approves.

(2) Within 3 hours after receipt of notice by the receiving activity from the Master or Mate of a tug or of a self-propelled barge of readiness to unload, the Government will provide, free of cost, a reachable safe berth for the tug and tow or self-propelled barge to be afloat at all times at the unloading port: PROVIDED, however, that if the receiving activity does not receive notice of a barge's readiness to unload within 24 hours before or after noon of the latest approved scheduled delivery date, the Government will be allowed 12 hours after receipt of notice within which to provide a berth.

(3) Unless otherwise provided in the Schedule, the Government shall be allowed and will complete unloading within laytime determined as follows: 1 hour for each 2,000 barrels of supplies to be unloaded, plus 1 1/2 hours; PROVIDED, however, that if the condition or facilities of the barge to be unloaded do not permit unloading within the number of hours so determined, such allowed laytime shall be increased by a number of hours sufficient to permit the unloading of the barge; PROVIDED, further, that when the barge is delayed in reaching its berth within 3 hours or 12 hours, as the case may be, from the time notice of readiness to unload is given, and the delay is caused by the fault of the barge, such allowed laytime shall be increased by the duration of such delay; and PROVIDED, further, that if regulations of the owner or operator of the barge or Port Authorities prohibit unloading at any time, time so lost shall be added to the amount of such allowed laytime. Laytime shall commence either--

(i) At the expiration of the notice period prescribed by (2) above (the 3 hours' or the 12 hours' notice, as the case may be), berth or no berth; or

(ii) Immediately upon the barge's arrival in berth (i.e., all fast), with or without notice of readiness, whichever first occurs. Laytime shall continue 24 hours a day, 7 days a week, without interruption from its commencement, until unloading of the barge is completed and the hoses have been disconnected.

(4) For all hours of laytime that elapse in excess of the allowed laytime for unloading provided for by paragraph (3) above, or as otherwise provided for in the Schedule, demurrage will be paid by the Government at the demurrage rate in the charter for the barge unloading, except (i) that such rate shall be reduced by 1/2 if demurrage is incurred due to causes beyond the control and without the fault and negligence of the Government; and (ii) that the demurrage payable by the Government shall in no event exceed the actual demurrage expense incurred by the Contractor under the charter. For purposes of computing demurrage payable by the Government, if the laytime allowed in the charter is

a combined total for both loading and discharging, 1/2 thereof shall be allocated to the unloading operation, except when less than a full cargo is unloaded, where such allocation shall be determined on a pro-rata basis.

(5) In the event of breakdown of Contractor's equipment, which will prohibit unloading for at least two hours, the Contractor will be required to remove the equipment from the Government-provided berth, unless permission is granted by the Government to allow the equipment to remain on berth. When the Government grants permission for the Contractor equipment to remain on berth, the Contractor will be responsible to reimburse the Government for any cost incurred by the Government for furnishing personnel to remain with the barge during repair; PROVIDED further, that if the Contractor removes the equipment from the Government provided berth, notice of readiness to unload will be again required as provided in (2) above.

(6) For all deliveries, hoses for unloading a barge will be furnished, connected, and disconnected by the Government.

(7) Title to the supplies delivered, and risk of loss thereof, shall pass from the Contractor to the Government when the supplies pass the permanent hose connections of the barge unloading the supplies.

(8) The term **barge**, as used herein, shall include lake tankers.

(b) BARGE FREE TIME AND DEMURRAGE CHARGES FOR DOMESTIC POSTS, CAMPS, AND STATIONS CONTRACTS.

(1) Unless the offeror indicates otherwise, free time will be unlimited. Free time allowed and demurrage rates will not be considered in evaluation of offers for award.

<u>ITEM</u>	<u>FREE TIME ALLOWED</u>	<u>DEMURRAGE BEYOND FREE TIME</u>		
		<u>BARGE</u>	<u>TUG</u>	<u>OTHER</u>

(2) Notwithstanding the above, the Government will not pay more than the actual rate charged by the barge carrier or the rate the Contractor normally charges its regular commercial customers, whichever is lower. Free time is in addition to all hours of laytime that elapse in excess of the allowed laytime for unloading as provided in this clause.

- (2) Any item or group of items terminated together; or
- (3) The entire contract.

(DESC 52.249-9F20)

I2.03 CHANGES – FIXED- PRICE (DEVIATION) (DESC MAY 1997)

(a) The Contracting Officer may at any time, by written order, and without notice to the sureties, if any, make changes within the general scope of this contract in any one or more of the following:

- (1) Specifications of the supplies to be furnished.
- (2) Method of shipment or packing.
- (3) Grade of the product to be furnished, but only to a grade within the same specification.
- (4) Type of container or of transportation equipment.
- (5) Place of inspection, delivery or acceptance.
- (6) Destination of shipments.

(b) If any such change causes an increase or decrease in the cost of, or the time required for, performance of any part of the work under this contract, whether or not changed by the order, the Contracting Officer shall make an equitable adjustment in the contract price, the delivery schedule, or both, and shall modify the contract.

(c) The Contractor must assert its right to an adjustment under this clause within 30 days from the date of receipt of the written order. However, if the Contracting Officer decides that the facts justify it, the Contracting Officer may receive and act upon a proposal submitted before final payment of the contract.

(d) If the Contractor's proposal includes the cost of property made obsolete or excess by the change, the Contracting Officer shall have the right to prescribe the manner of the disposition of the property.

(e) Failure to agree to any adjustment shall be a dispute under paragraph (d), Disputes, of the CONTRACT TERMS AND CONDITIONS - COMMERCIAL ITEMS clause. However, nothing in this clause shall excuse the Contractor from proceeding with the contract as changed.

(DESC 52.243-9F05)

I2.05-1 DEFINITIONS OF CHANGES (OVERSEAS PC&S) (DESC MAR 1990)

This clause supplements paragraph (a) of the CHANGES clause and refers to suppliers offering product to be shipped from their own refinery. The following changes are not within the general scope of this contract:

- (a) Alteration to the specification that would require significant reconfiguration of refinery design, or significant modification of current and planned refinery operations;
- (b) Alteration in method of shipment that would result in significant disruption of current and planned refinery operations; and
- (c) Alteration of the place of delivery that would require delivery from a refinery other than the one(s) specified in the Contractor's offer.

(DESC 52.243-9F15)

12.05-4	DEFINITIONS OF CHANGES (CONT'D) (OVERSEAS PC&S) (DESC JUL 1993)
----------------	--

The Government may delete a significant number of tanks and delivery locations from a single item which may alter the method of delivery from a combination of tank truck (TT) and tank wagon (TW) to predominantly TW deliveries. If, as a result of the deletions, the primary method of delivery is changed significantly so that increased delivery costs will be incurred, the Contracting Officer must be notified and a determination made to modify the contract in accordance with the CHANGES clause. Should no significant increased delivery costs be incurred, the contract price will not be modified.

128.03-2	TAX EXEMPTION CERTIFICATES (DESC JUL 1999)
-----------------	---

(a) **FEDERAL, STATE, AND LOCAL EXCISE TAXES.** Contractor's request for tax exemption certificates covering any Federal, State, local excise tax, or Kentucky Sales and Use Tax excluded from the contract price pursuant to the terms of this contract shall be forwarded with Contractor's invoices or as otherwise indicated by the Ordering Officer, except for (1) deliveries of motor gasoline or diesel fuel to Army and Navy activities, in which case requests for tax exemption certificates should be forwarded to the Ordering Officer, and (2) deliveries of all fuels to the National Guard, in which case such activities shall indicate the procedure for processing tax exemption certificates. Upon the Contractor's request for a tax exempt certificate, if the Government fails to provide tax exempt certificates to the Contractor, the Contractor shall notify the DESC Contracting Officer and invoice the applicable payment office for said taxes as an additional line item on the invoice. The DESC Contracting Officer may authorize payment of the tax if the ordering office or activity refuses to issue the tax exemption certificate.

(c) **GOVERNMENT OPTION TO DEDUCT TAX AND FURNISH TAX EXEMPTION CERTIFICATES.** If this contract provides that the Contractor is to invoice for the Federal tax, the supplies to be furnished under such item at the time this contract is entered into are generally intended for a purpose for which tax exemption cannot be claimed. However, in instances where the invoice price for any item includes the excise tax and tax exemption can be claimed, the applicable tax may be deducted from the order or the invoice by the Government and a tax exemption certificate furnished in lieu of paying the tax. Tax exemption certificates to be furnished under this paragraph (b) will be issued by the Ordering Officer.

(DESC 52.229-9F45)

186.06	DELIVERY – ORDER LIMITATIONS (OVERSEAS PC&S) (DESC AUG 1990)
---------------	---

(a) **MINIMUM ORDER.** The Contractor shall not be obligated to furnish supplies and/or services under this contract in an amount less than the minimum established in the Schedule of a single item for delivery to a single delivery point. In the event the prices established under this contract vary based upon the liter quantity of an individual delivery, the Government reserves the right to withhold ordering, without prejudice, until the individual delivery quantity required reaches a level, as determined by the Ordering Officer, that minimizes the per liter cost to the Government.

(b) **MAXIMUM ORDER.** Unless otherwise stated in the Schedule, the Contractor shall not be obligated to honor—

(1) Any order for a single item for a single delivery point in excess of _____;

(2) Any order for a combination of items for a single delivery point in excess of _____; or

(3) A series of orders from the same ordering office in the course of seven days that together call for quantities of items that total in excess of the limitation provided in (1) or (2) above.

(c) The Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum order limitations in (b) above.

(d) Notwithstanding the foregoing, the Contractor shall honor any order exceeding the maximum order limitations set forth above unless the Contractor verbally notifies the Ordering Officer within two workdays after verbal notification of an order or two workdays after receipt of a written order, followed by the return of the written orders to the ordering office, that he does not intend to make shipment of the items called for and the reasons therefor. When the Government has received this verbal notice, the Government may acquire the supplies from another source.

-------------	---

(a) The Contractor shall use reasonable care to avoid damaging or contaminating existing buildings, equipment, asphalt pavement, soil, or vegetation (such as trees, shrubs, and grass) on the Government installation. If the Contractor fails to use reasonable care and damages or contaminates any such buildings, equipment, asphalt pavement, soil or vegetation, or other Government facilities, he shall replace the damaged items or repair the damage at no expense to the Government and to the satisfaction of the Government. Further, if, as a result of the failure of the Contractor to comply with the requirements of this contract, Government buildings, equipment, asphalt pavement, soil or vegetation, or other Government facilities become damaged or destroyed, the Contractor shall replace or repair the damage at no expense to the Government, and to the satisfaction of the Government. Should the Contractor fail or refuse to make such repairs or replacements, the Government may have the said repairs or replacement accomplished, and the Contractor shall be liable for the cost thereof which may be deducted from the amounts which become due under this contract. Informal agreement with the Contractor upon replacement, repairs, or costs to be deducted shall first be attempted by the Installation Commander or Ordering Officer. If disagreement persists, the matter shall be referred to the Contracting Officer. Unless approved by the Contracting Officer, no costs shall be deducted from amounts due or owing without the Contractor's consent.

(d) The Contractor shall take all measures as required by law to prevent oil spills (including, but not limited to, any spilling, leaking, pumping, pouring, emitting, emptying or dumping into or onto any land or water). In the event the Contractor spills any oil (including, but not limited to, gasoline, diesel fuel, fuel oil, or jet fuel), the Contractor shall be responsible for the containment, cleanup, and disposal of the oil spilled. Should the Contractor fail or refuse to take the appropriate containment, cleanup, and disposal actions, the Government may do so itself. The Contractor shall reimburse the Government for all expenses incurred including fines levied by Federal, State, or local Governments.

1209.09 EXTENSION PROVISIONS (PC&S) (DESC OCT 1994)

(a) The DESC Contracting Officer reserves the right to unilaterally extend this contract on the same terms and conditions one or more times for a total of no more than six months. Notice of contract extension will be furnished to the Contractor 30 days prior to expiration of this contract or any extension thereof. However, nothing in this clause precludes the Contractor from agreeing to an extension of the contract if the DESC Contracting Officer fails to issue the notice within the 30 day time frame.

(b) The foregoing extension may be exercised by the DESC Contracting Officer where continued performance is required until a follow-on contract is awarded or, in the event a follow-on contract has been awarded, until a succeeding Contractor is positioned to commence performance.

(c) Extension of this contract shall be considered to have been accomplished at the time the DESC Contracting Officer provides written notification to the Contractor by facsimile or by mail.
